## Help Cyclone Win the \$200 Million GE Eco Challenge

9/16/2010

Friends of Cyclone, your help is requested.

We recently entered our Waste Heat Engine in the GE Ecomagination Challenge. There is \$200 million in funding at stake. This could be enormous for Cyclone and all its supporters!

The great thing is that you can make a huge impact. The public votes on the best ideas for adding renewable power to our nation's electric grid. We truly believe that our ability to convert waste heat from 1000s of factories, ovens, kilns and landfill flares into zero emission electricity is a winner.

It just takes a minute to vote, but we need you to do it now.

Click this link and help us win the big prize: [GE Winner - Cyclone-Whe](#) If that link doesn't work, cut and paste the following into your browser:

Best regards,

Harry Schoell and the Cyclone Team
